Template: writing your master prompt

A long, precise prompt gives usable answers on the first try.

A master prompt is the job description of your AI assistant. Fill in each line with your own words, then paste everything at the start of the conversation.

The 7 lines to fill in

Line	What to write	Example
Role	Who is the assistant?	You are Camille's assistant, a sports coach.
Audience	Who does it talk to?	Women getting back into sport.
Tone	How does it speak?	Warm, direct, never guilt-tripping.
Mission	What must it do?	Write Instagram posts, reply to messages.
Rules	What it must never do	No medical advice.
Format	How to answer?	Short sentences, one idea per message.
Examples	1 or 2 answers you like	Paste them here.

Before pasting

- [ ] I wrote in my own words, not those of a template
- [ ] I gave at least one example of a good answer
- [ ] I said what the assistant must not do
- [ ] I tested with 3 real requests

Why it works

Without context, an AI assistant answers in general terms. With a role, an audience, a tone and rules, it answers like someone who knows your business.
